well, i must say i don't like what i see you're upset but
as of yet it doesn't mean that much to me you say you
need my sympathy you say you're in a bind but there's
no time like the present to find some piece of mind and
you know i want to be there when you find out it's not so
bad you're gonna make it after all and you know the
pain will always go away i'll be there and i won't let you
fall let you fall you know that your proposition is an
imposition but if you want to talk i'm always here to
listen you seem so full of doubt the flame of life has
flickered out but i can see it burning that flame is still
alive *[chorus]* don't look for answers in the bottom of a
bottle just look inside yourself you'll find the courage to
live one more day one more day
