"Things To Make And Do"

Visit "[Things To Make And Do](#)" on MotoLyrics.com

I'm losing all my memories
I'm standing close to an edge
I'm at a loss for conversation
With people i've never met

I stop traffic
I stop traffic

I travel on public transport
I don't agree with cars
Private education makes me sick
Whatever happened to equality?

I got a tan from my TV

Do you believe everything your told?
I don't, do you
I want things to make and do

I'm lowering my standards
Trying not to be the average man
I don't read the daily mail
And I don't intend to start

I stop traffic
I stop traffic

I'm in debt from an education
I wasn't given an equal start
You're lowering my standards
You're doing what seems obvious

I got a tan from my TV
