Lights out  
Turn up the heat  
I've got a sick hot theme  
If ya know what I mean  
And if you keep it in check  
I swear I'll play nice

I've got you on the floor  
Arms open wide  
You have no choice  
'cause now they're tied  
The beast is out of his cage  
And now it's your time

So breath, breath  
I've got you on your knees  
She's a tease  
I hold the keys  
Exposed and shaken up  
I suppose we're making love

Good, good  
You're getting it down  
Let's step it up  
Slip off that red night gown  
You've followed procedure  
Now it looks like you need toÃ,Â  
Get on to get me off

So breath, breath  
I've got you on your knees  
She's a teaseÃ,Â  
I hold the keys  
Exposed and shaken up  
I suppose we're makin love

Above all else girl  
Please yourself  
Place your standards  
On the shelf

Tonight is rightÃ,Â

To do me wrong  
And I'll close my eyesÃ,Â  
And play along

If I hold you down  
I want you to scream  
Do what you feel girl  
But follow the theme  
'cause you change everything  
I know it's hard to believe  
You're the star of the show girl  
But don't forget to scream

Lights out  
Turn up the heat  
I've got a sick hot theme  
If ya know what I mean  
And if you keep it in check  
I swear ill play nice, I'll play nice

So breath, breath  
I've got you on your knees  
She's a tease  
I hold the keys  
Exposed and shaken up  
I suppose we're makin love

Above all else girl  
Please yourself  
Place your standards  
On the shelf  
Tonight is rightÃ,Â  
To do me wrong  
And I'll close my eyesÃ,Â  
And play alongÃ,Â
