And I'm allergic to tensions
I met a girl that was gonna destry my life
a girl that was taking me away in time

But now I'm down with the common sense
to your restricted ways
I left the best of the worst all the way outside
the best will be coming with me inside

Your lies are changing at the end of the night
you found out that you loved me
I found that too, but I'm not in the mood tonight

Sleeping around I'm telling you
Don't remember who I am
I'm making you drown
I'm begging you
Don't remember who I am

The city is burning on a saturday night
I will find you and I will not fail this time
My voice is breaking as I scream
will you move aside?

And call me psycho-romantic
besides the second day
I left the shame and started to feel this drive
The shame that will come to replace this drive

Your lies are changing at the end of the night
you found out that you loved me
I found that too, but I'm not in the mood tonight

Sleeping around I'm telling you
Don't remember who I am
I'm making you drown
I'm begging you
Don't remember who I am

The city is burning on a saturday night
I will find you and I will not fail this time
My voice is breaking as I scream

will you move aside?

The city is burning on a saturday night
I found out that you loved
I like that too but I'm not in the mood this time

Chorus

Consider days when you know that
everything will be ok
you know that, everything will be alright
you know that everything is lost now
leave me on the same ground

Leave me on the way down
lets find out a way on the way down
lets meet in the way back on the way down
lets find out a way back on the way
down
