Tune out modulations  
We run faded nations  
Turn up the music that you want  
Turn up the music that you...

Bring down empty affections  
Worn out introspection  
Turn/STOP the music that they want  
Turn/STOP the music that you

Call this plan of action:  
"Wait for my destruction"  
You cut all the equations  
We are the generation...(stand, STAND)

Back to back with the fading sound attack  
Got to get a lot of trust and around these tracks  
Run the most fucked up of places  
Where it depends on what you want. So...  
Why remember when I lost my freedom in time

Mid-class inhibition  
Sold out contradictions  
Turn up the music that you want  
Turn up the music that you

Sweet n' Low sanitation  
Broadcast information  
Turn/STOP the music that they want  
Turn/STOP the music that you

Call this plan of action  
"Wait for my destruction"  
You cut all the equations  
We are the generation...(stand)

Back to back with the fading sound attack  
Got to get a lot of trust and around these tracks  
Run the most fucked up of places  
Where it depends on what you want. So...  
Back to back with in a fading sounding track

Back to back with the fading sound attack  
Got to get a lot of trust and around these tracks  
Run the most fucked up of places  
Where it depends on what you want. So...  
Why remember when I lost my eyes  
I was so belated that I crossed my mind  
Now I'm searching for the "Americana"  
Waiting for the Americas to fall into million pieces  
In the fucking wildest places. Why??.....

WE ARE THE SPIRIT OF WASTE
