As life passes me by, i wanna be the best i can be. No need for drugs or your weak, i know what i want, cause i know im strong. Yeah i know im strong. Say what you want. Talk your talk. I got my X, i got my health and thats all want. Look at your life, then look at mine, you got a beer in your hand, and i got an X on mine. I wanna live my life clean, cause im too pure to die. I know im strong. I know what i want. You judge me for what i am, i judge by your character. You can talk all you want, i got my X i got my health, thats all i want
