He wasn't responsible for the act, I've been warned
I believe it wrong not to warn the people
And the machine, he come upon them and strike
I understand that somebody began to

And the song began to move up
I understand like this, move up
I understand like this, move up
So, they get tired

It was come dark and rain'll make you very tired
And then he went and knocked on, an old lady house
And old lady ran to the door, say, "Who is this?"
Jack say "Me, Mama-san, could we spend the night
here?"

'Cause we're far from home, very tired"
And old lady said, "Oh yes, come on in"
Said, "Come on in", So I'm realizing I'm in trouble
It was come dark and rain'll make you very tired
