Put up your lighter
Put up your lighter
Put up your lighter
Put up your lighter

Party, all night, fiesta, forever
Party, all night, fiesta, forever
Party, all night, fiesta, forever
Party, all night, fiesta, forever

This be a party for the whole world travel
'Cross seas like that girl we in the mind altering thangs
Couldn't leave it alone, we offered it a loan
Watch the porch jump straight to the ceiling

Hear the party drums beat for beat so, some want us to
leave
They want more, the time came to sang
Peace, they brought the rain, to wash away the pain
So we all can party in the streets

Well, I don't know about you
But we all trying to play dumb
But don't you worry about me
I promise you we gonna get free, just party

Party, all night, fiesta, forever
Party, all night, fiesta, forever

See your eyes be burgundy, and your body drop
Don't even look at your clock, skip on your vest
Or get up and watch the hands fly, in the middle of
December
I wash the wife-beaters
Heaters on full blast with some [Incomprehensible]

We like scavengers circling your block
While you do that your paper drop
You better hop jump and skip, before we dip
Because we falling through you, like the Bloods and
Crips

Gotta close your eyes and start dreaming
Everybody life got a little meaning
Got to spread your wings and start flying
If you living don't be worrying bout' dying, just party

Party, all night, fiesta, forever
Party, all night, fiesta, forever

Whether fast or slow, face it, pace it and let yourself go
Might not get a chance to do it no mo'
Let the music take your mind
Leave the worries of the world behind

Oh, such a beautiful sight for the blind it remind me of
a celebration
One nation under one rule it's that you ain't got nothing
to prove
Oh, let the music move you, and sooth you, like it's
supposed to

Love is life, life is worth loving
Love is life, life is worth living
Love is life, life is worth loving
Love is life, life is worth living

Party, all night, fiesta, forever
Party, all night, fiesta, forever

T-Mo cuts the record down to the bone
And now we back rapping on the microphone
I say signing autographs for little kids delight me
We can't help but be some stars in the shining night

See I was raised in the swats by my mom and pop
To be a cold little brother that you can't stop
On top of the charts, I'm a ladies man
The type of brother with heart, weak suckers can't
stand

'Cause I wanna be free, hear my spirit it's the clearest
Can you hear it in the gospel?
I came down here 'cause I gotta believe, don't follow
me
Don't follow me, I say I need someone to take me to the
Rave

Party, all night, fiesta, forever
Party, all night, fiesta, forever
Party, all night, fiesta, forever
Party, all night, fiesta, forever
