Do you remember what I said  
Did it stick inside your head  
And do I ever cross your mind  
Because I know, you do all the time  
And if I were to say  
Would you stay with me every day  
And we could dance around in circles  
And turn off the lights

But I gotta catch my breath  
Baby put your hand on my chest  
Because now my heart is

Racing seeing your face and  
She's got those sundrop rain cloud eyes and  
I know she really loves me  
There's not a thing that I don't feel  
Now

And every cent I make  
Doesn't add up to every smile I fake  
And I've been counting down the days  
I feel like I'm withering away  
So I close my eyes  
And I draw your smile  
And I can hear your voice now  
But it fades in the background

Lord please help me  
My heart is

Racing seeing your face and  
She's got those sundrop rain cloud eyes and  
I know she really loves me  
There's not a thing that I don't feel  
Now

So just stay with me  
I can love you better and every time I'm with you  
I can't breathe  
So put your head on my chest because  
Now my heart is

Racing seeing your face and  
She's got those sundrop rain cloud eyes and  
I know she really loves me  
There's not a thing that I don't feel

My heart is racing  
Racing away
