Cross your heart
Give me your word
Play your part
Keep me on your side
Make you mark
Never get hurt
Spend your time
Shopping in your night

You're not just burning that bridge
You've ripped it down just like it didn't ever exist
If I fall in the deep end
Would you fish me out or let me drown?

Would you let me drown?
Would you let me drown?
Now you liar (you liar)
Would you let me drown?
Would you hold my head down?
You liar (you liar)

Oh I'm fighting for air,
Where are you now?
Would you let me drown?
Would you let me drown? (whoa oh)
Would you let me drown?
Would you hold me head down?
You liar

Your eyes lie
Like your words cheat
I've seen you
Steal with a smile
Cut your ties
In a heartbeat
Left behind
A trail of denial

You're not just burning that bridge
You've ripped it down just like it didn't ever exist
If I fall in the deep end
Would you fish me out or let me drown?

Would you let me drown?
Would you let me drown?
Now you liar (you liar)
Would you let me drown?
Would you hold my head down?
You liar (you liar)

Oh I'm fighting for air,
Where are you now?
Would you let me drown?
Would you let me drown? (whoa oh)
Would you let me drown?
Would you hold me head down?
You liar

Would you let me drown?
Would you let me drown?
Now you liar (you liar)
Would you let me drown?
Would you hold my head down?
You liar (you liar)

Oh I'm fighting for air,
Where are you now?
Would you let me drown?
Would you let me drown?
Now you liar (you liar)
Would you let me drown?
Would you hold my head down?
You liar (you liar)

Oh I'm fighting for air,
Where are you now?
Would you let me drown?
Would you hold me head down?
Would you let me drown?
Would you hold me head down?
You liar
