Are you in the now
Smooth sheen
Dream to be seen
As you want to be

Control your primal instincts
Your break beat
Aesthetics
Control my world

It's not a bad place to be, ohh
It's so inevitable
When it's how I see

Catch you in a trance
Your eyes tunnel through my head
Space colour voids in a room
And lips like sliced liver

It's not a bad place to be, ohh
It's so inevitable
When it's how I see

Catch you in a trance
Seen you in a dream
The fall...
It lifts you up

It's not a bad place to be, ohh
It's so inevitable
When it's how I see
