The island of dreams where people are born with a joyful's touch.

The island of dreams where children look proud and full of heart.

There's something about you I was always looking for.
One thing I just know, day by day I love you more.

The island of dreams where birds are singing so sweet in trees.

The island of dreams, I hear a brook feel a gentle breeze.

You are my home, I feel so good deep inside.
Now I never knew this island is my only pride.

The bright blue sea, so calm, oh! I feel so free.

Long time ago, I met this island I love it so.

You helped me survive, you truly catch me alive.
What a lovely day, you will always stay this way.

The island of dreams, the sweetest island with red sunset.

The island of dreams, you're island I never will forget.
There's something about you I was always looking for.
One thing I just know, day by day I love you more.

The island of dreams brings memories back of the peaceful days.

The island of dreams, you showed me so many different ways.

The rising morn, the palm trees, beach and sand,
nothing in this world can change this beautiful land.

The island of dreams, where every body is in love with you ..

The island of dreams ...
