"Sleep With A Gun"

Visit "[Sleep With A Gun](#)" on MotoLyrics.com

Come, come inside
There's many places here you can hide
Don't, don't be afraid
It only hurts the very first time

Fall fast asleep
Fall fast asleep

Dried up and changed my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell
Dried up and changed my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell
Sleep with a gun
Sleep with a gun

Dried up and changed my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell
Dried up and changed my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell
Sleep with a gun
Sleep with a gun

Drive away, drive away
Drive away as fast as you can
Drive away, drive away
DrÃve away as fast as you can
