how can it be that opportunity isn't knocking at my door?

when will I find a better source of entertainment than my current unsuccessful, selfish one?

When worst comes to worst i need a helping hand
will you be there in the end?
i hurt myself more than anybody else
Will you notice me?

it's hard to see anything working out for me
with my own finances paying
i can't take care of myself
let alone anybody else
i guess we'll simply have to wait and see

when worst comes to worst i need a helping hand

will you be there in the end?
i hurt myself more than anybody else
Will you notice me?

because she never left me at any time
because she stuck right by my side
i owe her my life
because she gave me everything she can

and she would do it again
i owe her my life

when worst comes to worst i need a helping hand
will you be there in the end?
i hurt myself more than anybody else
Will you notice me?
