I am the monster  
In every children's nightmare  
Their parent's fear provokes me into a frenzy!

After preschool, Is it outside the parking lot  
I see their parents I've seen their innocence...  
I like the bitches their hairless virgin untouched bodies  
give off a  
Scent that drives me to a higher power  
I change from sane to sickness, With plans to  
sodomize  
Leaving toddlers screaming crying bleeding dying

If I might tell you a story,  
That's full of sickened glory  
This passage full of violence  
Will leave you dead silence

Katie was my first victim, I had to make it  
My most perverse  
The inauguration!  
I stole her from preschool as she was screaming  
I covered her pain with my semen  
Her petrified body mangled and bleeding  
From the second I laid my cock on her!

Katie was followed by Danny who came before Cindy  
The loveliest fuck I encountered  
I made her cum when she was just seven  
As she screamed in pain I gashed her throat!

The younger the tighter they are,  
Their age is more worthless to me than their parent's  
asshole!
