Some of us work 9 to 5
At a desk job way downtown
And some of us have calloused hands
From working that old ground
But we've got one thing in common
Every guy I know is the same
We've got a burning in our hearts
And it's a never ending flame

(Chorus)

We wanna ride off in the sunset
With the girl of our dreams
And head out west into the rockies
Where the air is cool and clean
And settle down in some green valley with the moon
and stars above
We're all cowboys when it comes to love we're all
cowboys when it comes to love

There's a house band somewhere playin'
In a honky tonk tonight
There's boots and jeans and beauty queens
Everybody's feeling right
Some are from the country
And some are city folks
No matter where you might be from
Every cowboy knows

(Chorus)

We wanna ride off in the sunset
With the girl of our dreams
And head out west into the rockies
Where the air is cool and clean
And settle down in some green valley with the moon
and stars above
We're all cowboys when it comes to love we're all
cowboys when it comes to love
