Some things are simple  
Some things leave doubts  
But this ain't no mystery  
I've figured it out

Chorus

My old truck runs a little bit smoother  
Can't help but think I'm a little bit cooler  
Than I ever was  
My old hat sits a little bit straighter  
My backyard gardens got bigger tomatos  
And that's because  
Things go better with love

This world keeps turning  
Goes on and on  
We've found the secret  
Right here at home

Bridge

You can grease the wheels with money  
But it's likely to leave you cold  
You can wine and dine all that's fine  
But one thing that I know

Repeat chorus

Things go better with love
