I think we're past it
Over the sad times
At least I'm hoping
We've made it right
And I can't wait
Until tomorrow
When the darkness seems like
Years ago last night

Chorus:
These tears will fade away
And broken hearts will heal
We'll wake up in each other's arms
Make love until it feels like
Years ago last night
Years ago last night

Sweet forgiveness
Is part of living
And it's one thing
You can't love without
So let the sunset
On this chapter
Our love story
Never was in doubt

Instrumental $\hat{A}^{3/4}$ verse

Repeat chorus

Years ago last night
