Jennifer I,
Was talkin to you
You said you could fly
I believe in you

Right over our heads while I was sleeping
You said that the clouds were always weeping rain.

Jennifer jenn
Lets make it come true
I don't wanna lie
Or be cruel to you

Right over my bed while I was sleeping you said that
the
Clouds were always weeping rain

I like to show you but I don't know what to do

I'd love to show you but I don't know what to do
Again
I'd love to love you but I don't know what to do
Again

I know it seems the worlds aganist our dreams don't let
It bring you down

It's complicated just remember that I'll always be
around
