Well I was out with some friends of mine
And we was having a real good time
Until I found out my friends were bad
They had done all the drugs that I had

I was looking for some good to be high
Wasn't thinking bout the good ol' guy
Went downtown to look for a ride
Damn motherfucker man I need to get high

I said look motherfucker now I'm looking for drugs
I'm not asking bout jesus, not askin for hugs
Cause I'll fucking kill you, and everyone too

I don't give a fuck about World War 2!

Well I was out with some friends of mine
And we was having a real good time
Until I found out my friends were bad
They had done all the drugs that I had

I was looking for some good to be high
Wasn't thinking bout the good ol' guy
Went downtown to look for a ride
Damn motherfucker man I need to get high

Stand I need to get high
Still motherfucker man I need to get high.
