There was a fire and I could not hide
There was a fire so I jumped inside
I got lost inside you
And now I'm lost inside you

And all of the love that I have inside
Just look in my eyes they're open wide
And I'm lost inside you
I'm so lost inside you
Lost

All of this love that I have inside
Just look in my eyes I can not hide
That I'm lost inside you
I'm so lost inside you

All of this love that I have inside
Just look in my eyes they're open wide
I'm so lost inside you
Lost inside you
Lost
Inside you
Lost
Lost inside you
You

I've got the message
You're out of your own pant
I tried my hardest to say this to you
It makes no difference
These words that we both said

They go in your hands
I out there
Take such a long time
I kick the door and I'm ready to your place
I, I couldn't be you
I bring the fire, I spit it in your face
I've tried my hardest to you

It goes in your hands

And it comes at some place else
It makes no difference
You're in love with your own face

It goes in your hands
And it comes out yet
For mankind

That boy who made you low
That boy don't even know
The boy caused you pain
That boy's got shit for brains

Had to let you know
I really don't even
Know what I know
You're my sunshine
You're my sunshine

Sad girl, don't lose your faith
Your tears are pretty diamonds
I'll kiss them off your face
I love to see you smiling

Had to let you know
I had to let you know
You're my sunshine

Just when you thought
That there couldn't be more
I can turn out the lights
And I'll show you it all
I can take you to heaven before the sun comes up
It's the way that you smile
When your talking to me
When I lost all my faith
You just made me believe
And I'll tell you all about it
Yeah
Get up closer to me

Cause I feel like I've been spinning round and round
I feel I've been spinning round and round
I feel like I've been spinning round and round
I feel like I've been spinning
Round and round
You're my sunshine
You're my sunshine

Angel
There's no sense calling out your name

Look at
To be near
Somewhere
It's something but it's not the same
Fears
So you say you're the angel's child
You're going too far
All around you
You'll worry about what tomorrow brings
You
All around you
Instead it makes your life feel complete
It keeps you on the edge of your seat
Laugh in the face of the kingdom come
And now you see it's falling
All around you
Now you'll say that you've heard it all
And now we see
Keep
And lay the branches down at your feet
It doesn't have to be that way
It doesn't have to be that way
It doesn't have to be that way

I never wanted to
She never wanted to
I never wanted to
She never needed love
It feels so
Down your
Come to they
It's too that you've been
The source of all love, life

You will learn you're headed for a fall
Or you can with your dreams
Life is a
It doesn't have to be that way
I never wanted to
She never needed us
I never wanted to
She never needed love
I never wanted to
I never want to die
She never wanted to
I never wanted to
She never wanted to
I never
She never wanted life
I never
I never wanted to love you girl

When I'm looking deep inside myself
And it seems in vain
How I've tried to be like someone else
But remain the same
A wasted life

I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)

When I'm sitting deep inside myself
And I seem so changed
Think about there's some place else
And it feels in vain
I waste my time

I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
I want to know (I want to know)
