You've been in all my dreams since you've been gone
Each morning when I wake up with the dawn
Dream Street Rose, I like the way you smile
Dream Street Rose, stay with me awhile

You gave more than anyone could ask
You washed away all shadows from my past
Dream Street Rose, Heaven only knows
Dream Street Rose that's the way she goes

Dream Street Rose, let us not pretend
Heaven knows, will you love me
Right 'til the end?

Somewhere in between there stands a dream
The sweetest dream that we have ever seen
Dream Street Rose, I like the way you smile
Dream Street Rose, please stay with me a while

Dream Street Rose, I miss you when you're gone
Heaven knows, I'm gonna love you
From now on

Dream Street Rose, I like the way you smile
Dream Street Rose, stay with me a while
Dream Street Rose, Heaven only knows
Dream Street Rose that's the way she goes
