Rectal feast

Defecation on her body
Introduction and dissection
Wasted deformed

Suppuration and infection
Rotten tissue and dissection
Wasted deformed

Defecation on this body
Introduction and dissection
Wasted deformed

Rectal tissue wasted fungus
And pulsation on her body
Is a rectal feast

Operation and dissection
My scalpel on her anus

Operation, amputation
I proceed to remove

Segregation with the bowel glue
I a devout of the rotten gore
In this cases I use an intestinal clamp
I a devout of the rotten gore

Surgically defect in to the anus split
To aggregate a rectalctomy
So the total rectal infect
Postoperative appearance
Grotesque tissue

Total rectal
Rectal feast
