I tried to live six years ago  
When this story started  
The sun, it told me where to go  
Open minded, open hearted

Freedom  
Freedom was my vision  
Every breath a dream  
A million years ahead  
All is what it seems  
Freedom was my vision  
Every breath a dream

Or are you taking by surprise  
Covering your sleepy eyes  
The mocking bird won't sing for you  
What ever happened  
To these friends I knew

These friends I knew  
Or was it just a dream  
Dreams are for real  
Life is only how you feel

Freedom  
Freedom is my vision  
Every breath I dream  
A million dreams I had  
And they're all for real  
Freedom is my vision  
Every breath I dream

Breathe on!
