"The War On Stupidity"

Back to the tribes
Back to the nations
A global war
On globalisation

Arm yourself for the sake of common sense
Shoot straight in the name of life's defence
Shoot straight
Better dying tall than living on your knees
Fight this poor man's way of living is my plea

Death to the slumber
And the apathy
A global war
On stupidity

I want a revolution to speed up evolution
This is our goal, this is our mission

No intelligence, zero tolerance
This is fact, this is no fiction

Arm yourself for the sake of common sense
Shoot straight in the name of life's defence
Better dying tall than living on your knees
Fight this poor man's way of living is my plea

Shoot straight!
