Laparoscopic hysterectomy,
Surgery to remove diseased gallbladders... including
culdoscopy.
Exanimate the internal female pelvic organs.
Aspiration of fluids,
Puncture of vaginal vault,
Uterosacral ligaments
Transabdominal incision into peritoneal cavity.
Vaginal fornix, in acception of hysterectomy
To operate into ventromedialis nucleus,
Of inner hypothalamus.
The acidification of ovoid groups cavity formed
artificially,
As result of infected pathologic process,
Vaginal creamy endotopical application arises,
The pustule's cells damage to increase ph value.
Culdoscopy, culdocentesis,
Purulent virulency in the clitoris region.
