Spreading.
Across out land.
Infecting breeding grounds.
Never to leave our hated soil.

Dying.
Hope is gone.
Right wing oppression.
Sentence us far beyond.

Submit - your fooled existence must now cease.
Torment - ignorant fools deny it's presence.
Eternal - condemned to back pages of mankind.
Nevermore - no one cares who lives or dies.

Denial of existence.
Existence.

Submit - your fooled existence must now cease.
Torment - ignorant fools deny it's presence.
Eternal - condemned to back pages of mankind.
Nevermore - no one cares who lives or dies.

Denial of existence.
Man.
