### "Fable of Filth"

Go forth and multily society gains and you're  
sentenced to die  
Blinded by lies, savage disdain and the fallen arise  
Beneath the fabric loyalist games and sadistic tactic  
Spellbind my eyes, the truth becomes mine, now begin,  
your demise  
Searching for my liken ones kith and kin, souls of god  
Few and far between they come distant lands, closely  
tied  
Take this land and call it mine cleanse the filth, in their  
guise  
Send me to the higher plane martyrdom, in god's  
eyes

Black cloud of death I walk among you  
Choosing my time I walk among you

Silent I creep, into your lungs, taking your breath  
Maggots you run, try to hide, every step to your death
