Torture now follows my name  
Amputation and killing becomes a game  
Pain and agony is what they feel  
As I slip them the drug that heals  
Removing and decapitating these pathetic bits  
From what was once a healthy bitch  
Sawing a chiselling the limbs away  
Chucked in a corner left to decay

A frozen body clinically cut  
Tampered and plundered and totally gut  
Symbolic memories of human trophies  
Fridge full of limbs and no motives  
Cadavers ripped apart and left to decay  
Prostitute heaven such as prey  
Cadavers ripped apart and left to decay

Frozen the bodies are all locked away  
Buried put in holes left to decay  
Infesting the insects begin to pick away  
Eating eating through the waste decay
