Gasp in horror, as I make you bleed profusely  
Deep red lines carved, painful trenches in the flesh  
I smell terror dripping from your every pore  
Penetrated countless times  
Each stab deeper than the last  
Spewing while you collapse  
Blade thrust into the gut  
And ripped across from side to side  
Organs spill as skin divides!

Stuffing in your intestines, falling from the laceration  
Deeply punctured through the throat, jugular  
ejaculating

Balls chopped off, shoved in your mouth  
Asshole stabbed, life comes pouring out

Horror seething, gored and bleeding, Shredded flesh  
overflowing, razor  
Cleaving, existence fleeting, Pool of crimson  
overflowing, Facial features  
Stained with pain, Violently I make you drain
