"Fucking The Viscera"

Useless fuck toy to enjoy, lifeless skinless slab of meat
Vile sadist, core it's anus, around my finger sweet to
eat
Stick my dick in, feel the wrath, eviscerated form of
love Splintered bones
Pierce my balls feeling pain from the scars
Unsuspecting doom erecting, slice it's chest open
wide, a meal revealing,
Sick appealing
Now I piss down deep inside!
Becoming one with my victims
Now my secrets stored unseen
Excrement and genitals lying in the sink
Stick my dick in, feel the wrath, eviscerated form of
love Splintered bones
Pierce my balls feeling pain from the scars Engorge the
lungs with my shaft,
Stab a hole through it's back
Fucking the viscera!
Drill a hole through it's head, and fuck it 'til it's dead!
Frozen cold in agony chopped into tiny pieces
Genitals cut off and burned melted in the acid
I won't stop until I am caught
For-seeing what I have done,
Chopped off heads and rectum ends now become my
fun!!!
Cut off from life, severed and sliced, pull back the
head and shit inside
Keeping them forever, soon will be my pleasure
On and on with the killing, feeding off the torture
Torturing unwilling, on and on with killing
Soon will be my pleasure-keeping them forever!
