Sickness breeds infatuation, violent thoughts
perpetuating. Ghastly screams
Of tortured victims, certain death anticipate.

Mutilating
Recreating massive wounds to penetrate.
Constant maiming,
Only pain and suffering will stimulate.

Slicing, stabbing, choking, gutting, engorging slabs
left over rotted.
Your sensuous gaze I will contort.

Stench of rotten bodies
Lacerated masturbation.
Bleeding, Cumming,
Engraved through self torture.

Fiend for gore I hunger more.
Razor's slice my cock's enticed.

I feed from the pain, deep within my punctured cock.
Veins exposed, spewing everywhere.
Cut up the flesh, baptized by my putrid actions.
Throbbing display dripping down my fist.

Mutilating, recreate,
Stimulate, penetrate,
Sinking deeper, twisted impulse, cutting fast to blow
my load

Lubricating, crimson draining, masturbate my cock
explodes
Slicing, stabbing, choking, gutting, engorging slabs
left over rotted.
Your sensuous gaze I will contort.
