Murder my patience falls.
Your corpse is my dead conscience.
Tolerance for screams and bullshit now extinct.
She begins to frenzy.

Savagely beaten
Anyone dares to confront me.
I'll enjoy
Making her face into craters.

Seething all I detest.
Genitals embedded with flesh.

Nose smashed flat into the face.
Mouth stitched shut.
Cries for help spat through busted lips.
Dying each breath choking on broken teeth.
Forced down to her knees.

Driving spikes through the wrists.
Pale white eyes sunken deep.
Sternum is dripping pus.
Lips sewn shut to it's cock.
Choking whore on her knees.
Stitched oral asphyxia.

Bleeding almost lifeless.
Pain excruciating.
Fading into darkness.
Bloodied pummeled:GORE!

Murdered my victims falls.
To arouse my lust for torture.
Searching for more blood to feed my appetite.
Everyone fuels my raging
Contempt.
