"Stripped To The Bone"

Barrels filled with acid
To destroy my human garbage
Rotting in the bathroom
Hacking limbs to pieces
I prepare for their disposal
See them stripped to the bone

Hose thrust deep up the rump
Acid is then pumped
Rectum explodes
As the insides corrode

Burning through the body
Melting internal organs
Caustic solvents saturating
Eating the flesh!!!

I get high on the stench of burning flesh
As they dissolve
Disintegrating and deforming
Skeletal husk remaining
Finished with their disposal
Grinding the bones into dust
