Black eyes in the dark of night.  
Sing me songs of death.  
Dark soul wrapped around me tight.  
Pure as baby's breath.  
Come caress me in your dark arms.  
Black embrace me with your sweet charm.  
Soul protect me from your own harm.  
Blacken my soul, My dark angel of sin.

Bring me into darkness.  
Shroud me from the holy light.  
Save this fallen angels soul.  
Take me mother night.

Black wings keeping out the light.  
Blanket me to bed.  
My dear evil mother night.  
Goddess of the dead.

Bring me into darkness.  
Shroud me from the holy light.  
Save this fallen angels soul.  
Take me mother night.
