I wish you'll always find a rainbow through every storm  
That you never would fear the dark can do you harm  
I wish, you wont ever have to say the magics all gone,  
all done.

Though it's true, time will always find you.  
Steal your youth  
Make you feel down & blue.  
Cause you have to  
Grow on up and give your spot up in Neverland

I wish you wont forget that dreams—they still come  
true.  
Even when you get caught in things you can't undo.  
I wish you'd always see the wonder that lies in you. I do.

Though it's true, time will always find you.  
Steal your youth  
Make you feel down & blue.  
Cause you have to  
Grow on up and give your spot up in Neverland  
Who says you have to?
