

## Gorilla Zoe "Baddest Bitch"

Visit "[Baddest Bitch](#)" on MotoLyrics.com

This a public service announcement  
For bad bitches only  
So if you a bad bitch  
It's time for you to hit the floor (Ayyy)  
Let's go

See I was chillin' in the club  
Me and my niggas  
Smokin' on bud  
Drinkin' on liquor like ooh ooh ooh  
When I saw you (you you you)  
Well you was chillin' with your girls  
Doin' your thang  
The way you broke it down  
Made me wanna rain on you (you you)  
You know how I do (do do do)

:::Bridge:::  
And you know  
Fo sho  
You the baddest  
That ass is the fattest  
Make me wanna blow  
My dough  
On you just to be my boo

:::Chorus:::  
Cause girl you the baddest bitch in here  
You might be the baddest bitch this year  
You know you the baddest bitch I've seen  
If they hatin' let em hate  
Bitch do your thang  
Cause they wanna be you (you you)  
Got em hatin' on you (you you)  
Cause they wanna be you (you you)  
Got em hatin' on you  
All the hoes in the club all wanna be you  
Cause you the shit girl  
Got that mac lip gloss on your lips girl  
So thick how you make them jeans fit girl  
She threw her hands in the air made it dip woah  
Like oh girl we like yea

Did you see that girl right there  
From her shoes up to her hair  
She's the baddest bitch in here

:::Bridge:::

:::Chorus:::

And she the flyest chick that I've ever seen (Yup)  
?Favorite color gator heels fitted cap? and jeans  
(Damn)  
Louie shades solitaire earrings  
Jimmy Choo purse cost money bout fifteen(what)  
hundred  
She must got big dreams (Where)  
Diamonds all on her belly ring (Stop lyin')  
Her swagger is talkin' and it's tellin' me  
She all about her cheddar cheese and don't care bout  
that jealousy (oooh)  
She roll to the melody  
Shorty twenty-three movin' like she's seventeen  
Yea (yea)  
I swear (I swear)  
She the baddest bitch in here (in here)

:::Bridge:::

:::Chorus:::

I know why (why)  
They wanna be you  
Cause you dress so fly  
They wanna be you  
Cause you look so bad  
They wanna be you
