Visit "[Battle Field](#)" on MotoLyrics.com

My life's a battle field
You can catch me on the front line
My life's a battle field
On the grind duckin' one time

My life's a battle field
One false move and you'll die
I don't care how you feel
You don't wanna see me on the battle field

Life at the zoo, that's the battle field
Niggas in the camp starvin', I ain't tryna miss a meal
Tell 'em how you feel, mad about a record deal
I was makin' deals way before I got a deal

What it is? My partner just got caught up with them pills
Already on the test, they tryna give him 12 years
You don't wanna talk that murda game
We got blood on our hands, block boys
I done lost a couple brothas, man

You watchin' movies thinkin' you Scarface or Pablo
Put it on a CD and count your lil' bar codes
Get it real life Arizona by the cargo
Battle field soldier, man, I'm out here till the box close

My life's a battle field
You can catch me on the front line
My life's a battle field
On the grind duckin' one time

My life's a battle field
One false move and you'll die
I don't care how you feel
You don't wanna see me on the battle field

Spark plugs, screwdriver, had to get the car
10 bricks in the '76 skylark
Don't look back, we're bein' followed by unmarks
Part hit the curb, tire bust in the rim spark

Blue light, no cops, hop out the hot box

Cut cop, you freeze, who me? I can't stop
Doo wop, shake they ass up like Mookie Blaylock
Tellin' me to stop but I don't really wanna co-op

I drop, they pop, aimin' with them red dots
Folks catch me now, they gonna spread me like a
peacock
Battle field, tryna find the whole like a red fox
'Me Against the World', now I'm feelin' like Tupac

My life's a battle field
You can catch me on the front line
My life's a battle field
On the grind duckin' one time

My life's a battle field
One false move and you'll die
I don't care how you feel
You don't wanna see me on the battle field

It's World War I where I'm from that why my mind gone
World War II when I shoot, get my grind on
Vietnam War in the car, Glock nine home
World War III up in me, I'm a time bomb

Civil War, I'm front line my mind like Sherman
My gat like Ulysses, grant them bullets, keep burnin'
My family get sick of me, the lessons I ain't learnin'
I give what I eat and I eat 'cause I hungry

My 9 like land mines, action like Columbine
Grab the tech, Virginia Tech all in the day time
I told ya it's over, we fold ya, fuck all y'all
And I ain't no soldier, I'm a prisoner of war

My life's a battle field
You can catch me on the front line
My life's a battle field
On the grind duckin' onetime

My life's a battle field
One false move and you'll die
I don't care how you feel
You don't wanna see me on the battle field
