[Del]

Whoa.. Hey let me ask my man over here!
Hey man let me ask you a question man and c if you
know what's up!
beat this!

Who fuses the music
With no illusions
Producing the blue prints
Clueless?
Automator - defy the laws of nature
Electronic monolith throw a jam upon the disc
The futuristic looper with the quickness
Hyper-producin' hydrogen fusion liquids keep your
distance

First we coerce your brain patterns
Collaborate with time-consumin' re-programin'
I apply the flow cannon, the combo so slamin
Automically reconstruct the old canvas
His logic impress, a hypnotic effect
Ya latin patent you could call it a gift
Man he all in the mix nuclear physicist
Geneticly taylored every bit of this stimulus

Psyonically bionically forget how you feel

Especially formulated the rest of you fornicated
It takes more to make this
He juggles variables
Unparalleled propulsion to carry the load
Nueral surgeon the purest virgin conducting currents
Musical merlin he shines like sterling
Watch the Automator draw laser of a higher intensity
And instantly miss a beat create a symphony

Hey I know now, I know now repeat
Automator's on the planet earth
and he's gonna stop the war of the worlds
Deltron Zero is here as well take the cut for real
He told y'all evil do'ers he is
truly gifted in the matters of rhythm

Ya you got to give him that
In his infinite wisdom you know you got to get with him

How's that?., How's that?... How did i do? is it cool?
(good job!)
was it really? (all is well with the cosmos) yhes, yes ..
i've got the purge of..
D.L. 3030,, yhea .. YHEA!
