We are facing the night together  
Sitting side by side  
You are like a guarded fortress  
Ready for a try  
Side by side - I feel the call  
Side by side - just like my first girl  
But I know your fortress  
Your fortress has no walls  
Yes, I know your fortress has no walls - no walls  
Looking in your eyes and smiling  
Why am I afraid  
I can take this fortress now  
It's ready to be made  
Face to face - I feel the call  
Face to face - just like my first girl  
Chorus:  
Oh I know your fortress-your fortress has no walls, Girl  
Yes I know your fortress has no walls-no walls  
Face to face - I feel the call  
Face to face - just like my first girl...  
Chorus
