The feeling in, guts to the brain, it means
You got it coming and you ain't gonna change
Their only attire is a typical vice but if it gets you
Well, well you ain't being nice, no, no

So follow the lives till they cut up your eyes
You won't be even seeing if you ain't growing lies
Then bought all the shit that should never be sold
They put a gun above it and a narrow behold

We are the happy landfill
We are the happy landfill
All right
