You couldn't escape this music even if  
Your name's Houdini  
Our tracks they last for Life and don't  
Disappear like a genie  
Communicating through your  
Airwaves like a giant C.B.  
'cause this one's for your radios over do you receive  
me  
Our music is so hot, it feels like the  
Sun in Tahiti  
We rickety-rock, Gorillaz style is buck  
Wild, believe me  
We heavyweights who phase ya like  
Ali did with Frasier  
We spit the most flava but musically,  
We'll amaze ya  
We've been blessed and we've been  
Gifted like Jesus in his manger  
Won't you shout 'Halleluia!' here  
Comes your music savior  
From your heart to your mind, your  
Spirits to your souls,  
We've come to take control with the  
Gorillaz on patrol  
See, our rhymes possess the powers  
Of a superhero  
Supernaturally we rock the mic but  
Wit' a natural flow  
If you didn't know before, you know  
Now - we told you so  
Gorillaz rock your dome just like the  
One in Tokyo  
It's a hard dream to contemplate  
I could fall into the abyss-ah  
And i love this interlude  
It's the reason to deliver  
And they called onto me  
Says they came to talk to me though  
The more of us that lies,  
Guess the kids don't live or die  
'cause we're makin' this music that's  
Making you lose it

So people don't abuse it and there  
Ain't no way for you to refuse it  
Gorillaz be the army that's startin'  
This pardy-ardy  
Makin' more noise than carnivals  
Mixed with the mardi-gradi  
We're comin' through your town with  
The sound that's so profound  
Gorillaz with the rappers that straight  
From the underground  
We're tearin' it down, makin' you feel  
This sort of force  
Knockin' you to your senses and  
Knockin' you off your course  
'cause we're the source, got you  
Feelin' that so appealing  
We got you jumpin' around and  
Bouncin' off of the ceiling  
Makin' music ya feeling from  
Baltimore into bristol  
I konw you're hearlin' me 'cause my  
Voice is clearer than crystal  
The casual, supernatural flows i be  
Exposin'  
Makin' sure that you're frozen and  
Makin' sure that i'm chosen  
To rip a score, makin' you damage the  
Dance floor  
Gorillaz and Phi Life'll give you what  
You ask for  
(chorus)  
Let Gorillaz be you guiding light and  
Your shining star,  
Whether you be home alone or drivin'  
In your car  
Don't matter who ya are, whether you  
Be near or far,  
You'll be feelin' entertained be our  
Music repertoire  
See, our poems, they be flowin' like  
Rivers and resevoirs  
'cause Gorillaz, we be out og this world  
Like men of mars  
We rap stars with supernatural spars  
We leave your brains amazed with  
This super music of ours  
So put yous hands up and stand up -  
It's time to get down  
'cause Gorillaz and Phi Life, we be  
Breakin' you 'rond  
From the right to be left, from the

Skies to the ground  
We're coverin' all angles and you  
Can't escape the sound  
On the track, it's laid back- we've  
Come to spray raps  
Keep it chilled and relaxed but we still  
Sound phat  
It's like that when we write raps  
We're not from the empire but we still  
Strike back!
