Jane Wiedlin/Gina Schock)

This is the place for celebrating  
This is the crowd that's fascinating  
This is the time for concentrating  
To hear some words worth translating

He's rapping 'bout his meditating  
She's dying for some medicating  
And though I shouldn't be complaining  
What's lacking here is entertaining

#### CHORUS

We're all looking for a good time  
But what we get is empty rhyme  
When everything's right but nothing's fine  
It's everything but partytime

Talk about decorating  
A room that needs sophisticating  
When conversations become straining  
No one's good at interest feigning

#### CHORUS
