The way you dance

You move in self romance

And you don't see me watch

The way you dance

Your eyes close in a trance

So you don't see me watching

People in this place just seem to stand around

Flashing cash they eye each other up and down

You're all alone out on the floor

The music spins you 'round

It's all you came here for

CHORUS

I see the night it's slipping by and every song

Takes me closer to the time when you'll be gone

How can I get through

Don't wanna break the spell

I just want to dance with you

CHORUS

-----
