If anything were wrong, it wouldn't take long  
Anyone that is weak, would end up being strong  
We would walk hand in hand, and love our fellow man  
As He meant it to be.

Chorus:

If I had a few wishes, I see things done right  
I'd end all the darkness, and bring eternal light  
I'd see His love shared, and everyone would care  
As He meant it to be.

Every child'll have a smile, and be living in style  
Love would touch every soul, it would always show  
Sickness and misery, are things that wouldn't be

And love is all that we'd see

Repeat Chorus:

The sun would always shine, we'd leave tears behind  
We'd love all our neighbors, and we'd all be real kind  
We'd all have someone, we'd all get to laugh  
As He meant it to be

Repeat Chorus:
