You say you want a lover
With a sense of danger
Come with me
I got some Willie Nelson
In my CD changer
Come with me

If you think I'm tryin' to steal your heart
Baby, give it some time
It could be that we might find out
It's you who's stealin' mine

Come with me let's hang out
Let's shout from some rooftops
And run through some raindrops
And make love and don't stop
Who knows where we'll end up
And who cares just come with me

You say you want somebody
Just as wild to run with
Come with me
Someone that you know
You're gonna feel one with
Come with me

Girl, you know I'm taken by your confidence
It's a beautiful sight
When I see what I want, I go right after it
And that's what I'm seeing tonight

Come with me let's hang out
Let's shout from some rooftops
And run through some raindrops
And make love and don't stop
Who knows where we'll end up
And who cares just come along with me
Baby, come with me

Oh baby, come with me let's hang out
Let's shout from some rooftops
And run through some raindrops

We'll make love and won't stop
Who knows where we'll end up
And who care just come along with me

Come on, baby
Oh baby, come with me
Come with me, oh yeah
Oh baby, come with me
Oh baby, come with me
Come with me, come with me
