"Death Wish"

Visit "[Death Wish](#)" on MotoLyrics.com

I'm lost
in this world of hate and sorrow
Tear drops
to satisfy my bitter thirst

I'll be your corpse
You'll be my soul
Lay down in peace
dreaming with me

Someday I will find the way to meet you again
why don't you want to see me die... I'm here for you
Wasting the moment, with anger... healing my wounds
Wishing I'll be in death tonight with you
Scream so loud
nobody can hear you my love
Walking so proud
even if the heaven is gone

Someday I will find the way to meet you again
why don't you want to see me die... I live for you
Wasting the moment, with anger... healing my wounds
Wishing I'll be in death tonight... cos I love you
