Look at them all on the inside
Look at them wasting away
Walking around like they're hypnotized
Look , no bars on the cage
This is where they're living
Same as where they'll die
Nothing lasts forever
Can someone draw the line
Do we ever know the reason
Of what lies behind that smile
Take a seat, enjoy the journey
Just relax, I'll lead you through
Through the Human zoo
Through the Human zoo
Well, I hear 'em cry in the daylight
I hear 'em scream after dark
A real life jungle atmosphere
Watch 'em tear each other apart
Cause this is where they're living
Same as where they'll die
Stop it now or never
Can someone draw the line
Do we ever know the reason
Of what lies behind that smile
Take a seat, enjoy the journey
Just relax, I'll lead you through
Through the human zoo
Through the human zoo
Through the human zoo
Through the human zoo
