Another day before us
and we're ready for the show
across the land of mystery
everyone with their own dream
sometimes harder than they seem

Here I am far away
hundred miles and oceans from you
feel the need to cry out loud
I want you to know

oh, you're all I care for
oh, you're all I care for
you're all I need

Soon I will be back again
I know, it's hard to love a kind of man
always on the line

always out of time
just one thin I know for sure

Here I am far away
hundred miles and oceans from you
feel the need to cry out loud
I want you to know

oh, you're all I care for
oh, you're all I care for
oh, you're all I care for
you're all I need
