If you're always trying to get to the top  
You don't get to the bottom of nothing  
Then you're gone before you know it  
You'd better stop (stop)  
Learn a little giving and loving

It's been done before  
C'mon, do it again  
'coz if it's good  
Then you should share it round  
What's the use of keeping  
All the good things that you've found to yourself?

Learn a little, learn a little, learn a little giving  
Learn a little, learn a little, learn a little giving and  
loving

You don't gotta keep no other man down  
For you to get up  
There's no need to worry  
Just don't give away your self-respect  
'coz if it's all you've got left  
The rest don't really matter now anyway honey

But give away love (give it)  
And give it for free  
No strings attached  
Just don't ask for it back

Learn a little, learn a little, learn a little giving  
Learn a little, learn a little, learn a little giving and stop

Giving  
Learn a little giving  
It's been done before  
C'mon do it again  
Learn a little, learn a little, learn a little giving and  
loving
